Why **C**orporate **S**ocial **R**esponsibility

CSR for Equality

CSR for Independence

CSR for employability

Edujobs Academy, the training wing of 2COMS, is focused on bridging the talent gap in various industries. Edujobs Academy focused in generating employability and hence all the program are designed to create or facilitate employment.

We are different from others in terms of the skill based training provided by us which is required in today's industry than theory based knowledge. We enable companies to translate their CSR activities in shape of skill development and employment for real time brand impact.

Value Proposition

We believe in building a long term CSR model and strategy to sustain CSR projects irrespective of the flow of the CSR funds.

We believe in creating an eco system where every student who successfully completes the training and gets placed helps in getting more students trained.

CSR Implementation Model

JobsAcademy, the training wing of 2COMS assists companies in their Corporate Social Responsibility (CSR) activities, right from policy making, execution up to evaluation. CSR needs to be credible, effective and strategic within the company and incorporated into a systematic management regime for opportunities to be explored.

We enable Corporate to identify, undertake and execute CSR initiatives for the society. At present we are helping various companies to plan & implement various activities under Corporate Social Responsibility (CSR) initiative.

Concept

Mission Statement

We wish to create a chain where the CSR model becomes self sustainable.

A holistic training methodology

To ensure the most effective training and empowerment, we employ a holistic training methodology which ensure the best possible knowledge transfer. Below are some of the salient features of our training methodology.

Anybody securing less than 85% marks in any module is given special class till the time he/she gets complete hold over the subject.

iChange is our special personality development program where we train students on what is personality, how to evaluate our own personality traits and finally how to work on them and bring the change in yourself for a corporate ready personality.

Soft skills is a part of our regular curriculum. Soft Skill help students clear placement interviews but to succeed in life. Our Courses enables complete professional grooming of our students.
